

STATEMENT OF REMOVAL FROM CAPSTONE GROUP

Date: May 6, 2026

To: Capstone Project Adviser and Capstone Coordinator

Subject: Request for Removal of Group Member – Isha Mae Oba

Dear Sir/Madam,

We, the undersigned members of the Capstone Project 1 group, respectfully submit this formal statement requesting the removal of Isha Mae Oba from our group due to her consistent lack of participation, ineffective communication, and insufficient fulfillment of assigned responsibilities.

While Isha Mae Oba attends weekly journal signings and interviews, she consistently fails to attend required consultations and brainstorming sessions with our adviser. As a result, she remains unupdated with the group's progress, shows limited engagement in discussions, and contributes minimal ideas or meaningful input.

In terms of assigned responsibilities, Isha Mae Oba only completes explicitly assigned tasks, but her outputs often do not align with project objectives. As a result, her work requires repeated revisions and explanations, causing delays and adding extra workload to other members.

Specifically:

- As the assigned Documentation personnel, Isha Mae Oba did not effectively perform her responsibilities due to poor communication and failure to attend weekly consultations, which are essential for aligning documentation with project requirements.

- Several tasks initially assigned to her were eventually completed by other group members after she submitted incorrect or incomplete outputs. Despite being asked to revise her work, she failed to respond or provide updated submissions within a reasonable timeframe.
- She contributed to the Review of Related Literature (RRL) and the Gantt chart formatting; however, most of her outputs were not utilized in the final documentation because they were not aligned with the project's objectives.

In addition, there are ongoing communication issues within the group. Isha Mae Oba is largely inactive in the group chat, making it unclear whether she receives or acknowledges important messages, especially with her read receipts disabled. She rarely participates in discussions and instead she sends private messages to ask for tasks rather than communicating in the group chat.

Despite multiple reminders and requests, she continuously failed to attend scheduled consultations with our adviser, which further limited her understanding of the project and negatively impacted her ability to contribute effectively.

In accordance with the Capstone Project 1 Agreement and Commitment Form, we confirm that due process has been observed, and this request is supported by documented performance and communication concerns.

Given these circumstances, we respectfully request the evaluation and approval of this matter by the Capstone Adviser and Capstone Coordinator for her removal from the group, in accordance with the disciplinary procedures.

This request is made in good faith, with the intention of maintaining fairness, accountability, and ensuring the successful and timely completion of our Capstone Project.

Thank you for your consideration.

Respectfully yours,

Morte, Kerby Bryan T.
